

PRODUCTIVITY, ECONOMIC EFFICIENCY AND ERGONOMICS

PONSSE ERGO 8w for demanding terrain Supported by eight wheels, with increased tractive force and lower ground pressure, the Ponsse Ergo is now proceeding to more difficult terrain including sloping sites. It can be equipped with balanced bogies to further en-

hance its hill climbing capacity. Effective harvesting is guaranteed by the machine's efficient but economical Mercedes Benz engine, double-circuit hydraulics, and solid and service-friendly structure.

GUARANTEED POWER AND COMFORT

PONSSE Buffalo, which has been upgraded on the basis of customer feedback, guarantees sturdy operation and easy maintenance. The Buffalo provides you the most economical and productive performance for all terrains and conditions from regeneration to thinning sites. PONSSE Buffalo's loader offers first-class control for your work, and its unique strength is something you really must try. And when the intelligent PONSSE OptiControl automatically optimizes the power and fuel consumption, you can totally focus on your work.

The new Buffalo has been developed according to the users' wishes. This is why its productivity and usability are among the very best in the world.
